- Dogs exposed to frequent bathing or grooming
- Pets living in dry climates or heated indoor environments

Product Features

- Leave-on barrier support formula
- Lightweight, non-greasy texture
- Hydrates and conditions skin and coat
- Supports healthy skin barrier function
- Suitable for routine grooming care

Ingredients

Actual version on the webpage - www.puruspet.com

INGREDIENT CONCEPT

Ceramide NP, Ceramide NG - Helps restore essential skin lipids that maintain the skin's natural barrier and reduce moisture loss.

Phytosterols – Plant-derived lipids that help repair and reinforce the skin barrier.

Bisabolol – A calming compound (from chamomile) that reduces redness and irritation

Sorbitol & Betaine - Natural humectants that help attract and retain water in the skin.

Oryza Sativa (Rice) Bran Oil – Rich in antioxidants and fatty acids that nourish and soften skin.

Tocopherol (Vitamin E) – Protects skin from oxidative stress and supports healing.

DIRECTIONS FOR USE:

- Spray lightly onto the pet's coat and skin from a short distance.
- Massage gently or brush through the coat if desired.

USE:

- Between grooming sessions
- After bathing
- As part of a regular coat care routine
- No rinsing required.
